

# ACADEMIC LABS/TUTORIAL SCHEDULE

and other important information about how to succeed at CHS....

**FALL 2015**

To use a lab or tutorial for academic support, simply ask your teacher in that subject area for a pass. You may use labs during your Study Halls (after attendance is taken, with permission for your Study Hall teacher), during your lunch, or during a period such as 1 or 9 when you do not have a class. The signed pass is important because it helps us identify what our students need and serves as attendance record for our labs in the event of an emergency. *Be sure to sign in to the lab when you get there!* Should you come to school early (before Period 2) to go to a lab, be sure to sign in upon entry to CHS at the front desk before proceeding to the lab or library.

Our **library** is open from **7:30 am to 4:00 pm**. Be sure to have your student ID with you to sign in. Your ID is the card you will use to check out any materials. Media Specialists Ms. Ng and Ms. Quick are important resources for you here at CHS. Get to know them!

Need your **Powerschool** or **school district Chrome log-in**? See Mrs. Voorhees in Room A243. (rvoorhee@somsd.k12.nj.us)

Check out the **LOFT**, in our ground-floor D-wing, during lunches or after school for homework assistance (every Tuesday after school, with CHS teachers), pool, games (video and old-school), friendship, and a place to decompress, check in, and make new friends. The LOFT is run by CHS in conjunction with Family Connections and offers social, emotional, academic support, counseling and service learning opportunities....and did we mention fun? (Check it out, and pick up a family permission form for services).

**CONFERENCE PERIODS:** Every CHS teacher is available during a conference period (2:12-2:39 or 3:01-3:28) after their teaching day ends.) Check with your teachers about where and when to find them during the conference period. Can't make the conference period? Don't panic. Check out the tutorial labs, find a time and spot that works for you, or check with your teacher to find another time that works. Need help making this happen? Check in with your guidance counselor! Still need help? Check in with your Dean or Assistant Principal! We will work together to help you get what you need.

**LUNCH** at CHS is 45 minutes long. That's A LOT of time to get work done, get help, or study. See below for a teacher you might ask for support during each lunch. An administrator or dean is also always available during lunch in the cafeteria. Feel free to ask them to point you in the right direction. Check out this chart for helpful information.
