

Attention Mothers and Daughters!

I am a nurse researcher and my daughter is a journalist. We are launching a project that focuses on mother daughter communication.

We are looking for mother and daughter pairs throughout the lifespan to share their experience.

The event will take place in Maplewood on **Sunday November 13th at 6pm**. You will be photographed (possibly videotaped) and be a part of a movement to strengthen communication between mothers and daughters!

We are looking for diverse mother daughter groups (ages 11-80)
