The Redevelopment Area as seen along South Orange Avenue

INTRODUCTION

The following pages provide a detailed and comprehensive vision for the revitalization of underutilized properties within the scenic and historic downtown of South Orange Village. This redevelopment plan (“Plan”) applies to the following properties, as depicted on the Township of South Orange Village’s Tax Map: Block 1006, lots 1, 2, 3, 9, 10, 13, and 14 (hereinafter referred to as the “Redevelopment Area,” or “Area”). The goal of the Plan is to provide the planning and policy framework of the redevelopment, effectuate the Village’s planning goals, and determine a potential program for development. The principal goal of the Plan is to improve the quality of life and create public benefits for existing and future residents of the Village.

The Township of South Orange Village has determined that the use of the redevelopment powers granted to municipalities under the Local Redevelopment and Housing Law (“LRHL”) (N.J.S.A. 40A:12A-1, et seq). would be the most effective approach to revitalize the parcels contained in the Vose + Taylor Redevelopment Area. Block 1006, lots 1, 2, 3, 9, 10, 13, and 14 were designated as “area in need of redevelopment” in separate resolutions going back to the mid to late 1990s. Lots 1, 2, 13, and 14 were designated under Resolution 301-95, dated December 18, 1995. Lots 3, 9, and 10 were designated under Resolution 17-99, dated January 25, 1999. Each resolution designating the above properties can be found in Appendix A.

The Redevelopment Area is located along the northern border of South Orange Avenue and between Vose Avenue, Scotland Road, and Taylor Place. Situated along a primary commercial thoroughfare in the heart of South Orange Village, the Redevelopment Area occupies a highly visible, notable location relative to the Village’s other assets in the downtown area.

1.1. Redevelopment Area Context Map

1.2. Plan Overview

This Plan is intended to provide a regulatory framework for an innovative and unique redevelopment opportunity in the center of South Orange Village’s bustling central business district. With particular attention to site planning, building design, and public improvements, this Plan serves both current nearby residents and members of the greater South Orange community.

Due to the Redevelopment Area’s importance to the social and economic condition of South Orange Village, this Plan puts a premium on context-sensitive provisions that accrue benefits in the daily life of the community. Prior to crafting this Plan, the Village embarked on a substantial public outreach plan, which gave residents and visitors to the Area and opportunity to voice potential concerns, provide design feedback, and shape the overall character of potential redevelopment. The Area’s centrality within the Village’s primary business district acts as both

a gateway for the Village’s considerable assets, such as the train station and plethora of local business, and a destination for residents and visitors alike. As such, the building and site design should prioritize components that cater to an attractive and enjoyable pedestrian experience.

1.2.1. In accordance with the LRHL [N.J.S.A. 40A: 12A-7.A.2], this Plan establishes the following proposed requirements for the Vose + Taylor Redevelopment Area:

- A. Land Uses
- B. Bulk Standards
- C. Design Criteria
- D. Building Requirements

The provisions set forth in this Plan shall supersede, govern, and control the standards for the designated properties. As a result, the underlying Central Business District Redevelopment Plan the site falls within shall be superseded as part of the Plan. Any standard, definition, or regulation in the Township of South Orange Village Municipal code that is not specifically addressed by a superseding standard definition, or regulation in this Plan shall apply as part of this Plan. The Board of Trustees, acting as the Redevelopment Entity, shall make the final determination as to the consistency of a redevelopment project with this Redevelopment Plan.

LRHL (SEE APPENDIX A)

2

The Township of South Orange Village determined that the use of the redevelopment powers grants to municipalities under the LRHL would be the most effective approach to revitalize the parcels contained in the Redevelopment Area.

The Area was designated by the Township of South Orange Village as an “Area in Need of Redevelopment,” in accordance with the LRHL in 1995 and 1999. The Township of South Orange Village does not intend to acquire any property within the Redevelopment Area for the purposes of executing this Plan.

For more information, refer to LRHL Regulations + Policy (Appendix A).

4.2. Redevelopment Area Map

4.3. Property Background

4.3.1. History of Site

The Redevelopment Area is located within close proximity to the Historic South Orange Train Station in downtown South Orange. Historical documentation of the downtown area shows the Village’s growth was primarily concentrated around the train station, with a mix of commercial and residential uses within walking distance of the station. The existing character of the properties fronting South Orange Avenue has not experienced significant change between the late 19th Century to current day, as photos show mixed-use buildings with significant frontage along South Orange Avenue.

As early as 1860, the block between Vose Avenue and Taylor Place contained a General Store across from Village Plaza and a Forge. From the mid to late 19th Centuries, as the Village's development grew around the train station, South Orange Avenue and the Redevelopment Area were a focus of daily life within the Village, as two, three, and four-story buildings containing various commercial uses were built. Prior to the widespread use of the automobile, South Orange Avenue contained two separate trolley tracks complete with electric wires suspended over the right-of-way to power the trolleys.

In the 20th Century, design of the Village's downtown began to accommodate the automobile as the dominant form of transportation. As a result, surface parking within the downtown area became both an amenity and necessity for the viability of commercial and civic life within the Village. Historical imagery indicates that lots 1, 3, and 14, have at least since the middle of the 20th Century, were almost exclusively used for surface parking. On the other hand, lots 2, 9, 10, and 14 show a primarily commercial use since the same time period.

4.3.2. Existing Conditions

A. Existing Development

The properties comprising the Redevelopment Area have a range of uses, from a municipally owned parking lot, to commercial institutions along the Village's primary thoroughfare. Additionally, the Area covers nearly an entire block in downtown South Orange, as lots 9, and 10, front South Orange Avenue, while lots 1, 2, 3, 13, and 14, contain significant frontages along Taylor Place and Vose Avenue.

The largest property within the Redevelopment Area, lot 3, is a municipally owned surface parking area that has vehicular entrances along Taylor Place, while providing pedestrian access to the parking lot from South Orange Avenue and Scotland Road. Lots 9, and 10, which front South Orange Avenue, comprise of one- and two-story commercial buildings. Lot 13 is primarily a commercial property, hosting a daycare center and its associated parking area. Finally, lots 1 and 14 provide parking and access to the Area's commercial uses.

4.3.3. Neighborhood Context

Downtown South Orange is an active, bustling community with major transportation commercial, and civic aspects. Additionally, the downtown area has a central location within the Village and is relatively close to surrounding communities, with nearby Maplewood and Orange about two miles away. This combination of centrality, commercial, and civic life create an active, livable community that continues to be a model for other municipalities within New Jersey.

The Redevelopment Area, located within the heart of downtown South Orange, is less than a five-minute walk from the train station along South Orange Avenue. Served by New Jersey Transit's Morris & Essex Line, the train provides convenient eastbound service to major employment centers in Newark and Midtown Manhattan, with travel times of 20 minutes and 35 minutes, respectively. Westbound service, with major New Jersey destinations like Summit, Chatham, and Morristown, is equally convenient, with more than four trains per hour leaving South Orange during peak morning and evening hours.

Despite the convenient location and service to regional destinations, the train tracks bisect the Village, thus exacerbating mobility and congestion issues within the local

area. Aside from South Orange Avenue, 3rd Street is the only road that provides east-west access south of the Redevelopment Area. Located off of Valley Street, this street's proximity to the train tracks and proximity to a major residential development, combine to create congestion issues during morning and evening rush hours.

In total, downtown South Orange has experienced an evolution in its built environment over time. From its early beginnings as a walkable Village, to its current status as a significant destination for its quality amenities, it's no surprise that the market has encouraged development in recent years. A notable residential development, 3rd & Valley, has provided 215 units, catering to a growing market of baby boomers wishing to downsize from single-family homes, and young professionals seeking a Village lifestyle with access to major employment centers. Additional developments near the Redevelopment Area, including the Avenue at South Orange and Convent Mews add life to the vibrant downtown.

4.3.4. Property Restrictions

A. Easements

A large radius—approximately 5 feet in diameter—drainage pipe crosses the Redevelopment Area and appears to contain a historic stream. The Pipe runs generally parallel to South Orange Avenue and approximately 120 feet north of the Avenue's right-of way. While no legal easement has been discovered, the existence of the pipe and the necessity to allow the area to drain properly requires that the pipe remain in so much as is necessary to allow the stream to flow.

B. Contamination

The properties in the Redevelopment Area are not included on the New Jersey Department of Environmental Protection's list of known contaminated sites.

C. Slope

The majority of the Redevelopment Area has only a modest slope, with the highest point of the Area on the north side of the Area nearest Taylor Place and sloping down towards Vose Avenue. Directly adjacent Vose Avenue some sections of the Area have a more significant slope, dropping approximately four (4) feet vertically in less than 10 feet horizontally.

4.3.5. Mobility + Circulation

A. Surrounding Streets

The Redevelopment Area is a central location within the Village of South Orange. The Area includes properties that contain significant frontage along the Village's primary commercial thoroughfare, South Orange Avenue.

South Orange Avenue is an Essex County right-of-way that connects many of the county's commercial centers with smaller towns, including Newark to the east, South Orange, and Short Hills, and Livingston to the west. The right-of-way is approximately 80 feet in width, with a cart path (roadway) of about 55 feet in width. This two-way street contains travel lanes in both the east and west direction, with parallel parking along much of the corridor, and dedicated turning lanes at intersections. According to data provided by the New Jersey Department of Transportation in 2016, South Orange Avenue at Vose Avenue experiences a vehicular traffic volume of about 16,000 vehicles on an average weekday.

Scotland Road, located east of the Redevelopment Area, is another right-of-way owned by Essex County, and is a north-south thoroughfare that connects the downtown area to Maplewood (southbound) and the City of Orange (northbound). Near the Redevelopment Area, the Scotland Road right-of-way is approximately 60 feet in width, with a cart path of approximately 45 feet in width. At this location, Scotland Road contains one northbound lane, with three southbound lanes. The southbound lanes contain a dedicated left turn lane onto South Orange Avenue, along with a through lane and a through or right turn lane. At the time of writing, traffic volumes for Scotland Road near the Area are not readily available.

Vose Avenue, a north-south thoroughfare to the west of the Redevelopment Area, is a municipally owned right-of-way that plays a key role in providing access to several important locations with oft-used facilities. Located off this street are important civic institutions like the US Post Office, medium density workforce housing, and, farther to the north, Mountain Avenue train station. Closer to the Redevelopment Area, Vose Avenue has width of 45 feet, with parallel parking on either side of its 10-foot-wide travel lanes. Vose Avenue provides for a left turn from Taylor Place, while its intersection with South Orange Avenue is signalized, allowing drivers to turn left or right. Sidewalks along Vose Avenue near the Redevelopment Area provide a six-foot width for pedestrians.

B. Rail + Bus Ridership

The South Orange train station is a significant transit asset for the Village and nearby residents and witnesses 4,131 boardings on an average weekday on the Morris and Essex Line. There is an additional train station, Mountainside station, near the eastern border of the municipality with connections to the 92-bus line. Mountainside averages approximately 333 passengers a weekday. Both stations are on the Morris and Essex train line which provides access to points west, including Summit and Morristown, and terminates a Dover. Destinations to the east include New York City Pennsylvania Station as well as Hoboken and Newark Penn Station. Additionally, South Orange Village operates a bus jitney system containing four routes with stops in eight neighborhoods throughout the Village including several with connections to transit. South Orange is also serviced by two NJ Transit bus lines: the 92- and the 107-bus lines. The 92-bus line provides connections to Newark's light rail system and Branch Brook Park. The 107-bus line provides a connection from West Orange through the Village, to Newark's Pennsylvania Station.

The Planning Board may also grant such relief in an application relating to a specific piece of property where the purposes of this Plan would be advanced by a deviation from the strict requirements of this Plan and the benefits of the deviation would outweigh any detriments. This Plan herein has delineated a definite relationship to local objectives as to appropriate land uses, density of population, and improved public utilities, recreation and community facilities and other public improvements. This Redevelopment Plan has laid out various programs and strategies requiring implementation in order to carry out the objectives set forth herein.
- 7.19.2. This Plan lays out the proposed land uses and building requirements for the Redevelopment Area.
- 7.19.3. The diagrams, images and other graphic representations provided in this Plan are intended to provide a framework for interpretation of the written standards and regulations contained herein. Nothing in this Plan shall preclude the partial redevelopment of a block depicted in such diagrams, images or other graphic representations, provided that such subdivision or re-subdivision and partial redevelopment of a block is fully in conformance with the written standards and regulations contained herein.

New Jersey’s Local Redevelopment and Housing Law (the “LRHL”) empowers local governments to initiate a process by which designated properties that meet certain statutory criteria can be transformed to advance the public interest. Once an area is designated “in need of redevelopment” in accordance with statutory criteria, municipalities may adopt redevelopment plans and employ several planning and financial tools to make redevelopment projects more feasible to remove deleterious conditions. A redevelopment designation may also qualify projects in the redevelopment area for financial subsidies or other incentive programs offered by the State of New Jersey.

8.1. Process

The LRHL requires local governments to follow a process involving a series of steps before they may exercise powers under the LRHL. The process is designed to ensure that the public is given adequate notice and opportunity to participate in the public process. Further, the redevelopment process requires the Governing Body and Planning Board interact to ensure that all redevelopment actions consider the municipal Master Plan. The steps required are generally as follows:

- 8.1.1. The Governing Body must adopt a resolution directing the Planning Board to perform a preliminary investigation to determine whether a specified area is in need of redevelopment according to criteria set forth in the LRHL (N.J.S.A. 40A:12A-5).
- 8.1.2. The resolution authorizing the Planning Board to undertake a preliminary investigation shall state whether the redevelopment area determination shall authorize the municipality to use all those powers for use in a redevelopment area other than the use of eminent domain (non-condemnation redevelopment area) or whether the redevelopment area determination shall authorize the municipality to use all those powers for use in a redevelopment area, including the power of eminent domain (condemnation redevelopment area).
- 8.1.3. The Planning Board must prepare and make available a map delineating the boundaries of the proposed redevelopment area, specifying the parcels to be included and investigated. A statement setting forth the basis of the investigation or the preliminary statement should accompany this map.
- 8.1.4. The Planning Board must conduct the investigation and produce a report presenting the findings. The Board must also hold a duly noticed hearing to present the results of the investigation and to allow interested parties to give testimony. The Planning Board then may adopt a resolution recommending a course of action to the Governing Body.

- 8.1.5. The Governing Body may accept, reject, or modify this recommendation by adopting a resolution designating lands recommended by the Planning Board as an “Area in Need of Redevelopment.” The Governing Body must make the final determination as to the Non-Condemnation Redevelopment Area boundaries.
- 8.1.6. If the Governing Body resolution assigning the investigation to the Planning Board states that the redevelopment determination shall establish a Condemnation Redevelopment Area, then the notice of the final determination shall indicate that:
 - A. the determination operates as a finding of public purpose and authorizes the municipality to exercise the power of eminent domain to acquire property in the redevelopment area, and
 - B. legal action to challenge the final determination must be commenced within forty-five (45) days of receipt of notice and that failure to do so shall preclude an owner from later raising such challenge.
- 8.1.7. A redevelopment plan may be prepared establishing the goals, objectives, and specific actions to be taken with regard to the “Area in Need of Redevelopment.”
- 8.1.8. The Governing Body may then act on the Plan by passing an ordinance adopting the Plan as an amendment to the municipal Zoning Ordinance. Only after completion of this process is a municipality able to exercise the powers under the LRHL.

8.2. Redevelopment Plan Content

The LRHL identifies required components to be included in a redevelopment plan. In accordance with N.J.S.A 40A:12A-7a, the redevelopment plan must include an outline for the planning, development, redevelopment or rehabilitation of a project area which is sufficient to indicate:

- 8.2.1. Its relationship to definite local objectives as to appropriate land uses, density of population, and improved traffic and public transportation, public utilities, recreational and community facilities and other public improvements.
- 8.2.2. Proposed land uses and building requirements in the project area.
- 8.2.3. Adequate provision for the temporary and permanent relocation, as necessary, of residents in the project area, including an estimate of the extent to which decent, safe and sanitary dwelling units affordable to displaced residents will be available to them in the existing local housing market.
- 8.2.4. An identification of any property within the redevelopment area which is proposed to be acquired in accordance with the redevelopment plan.
- 8.2.5. Any significant relationship of the redevelopment plan to (a) the master plans of contiguous municipalities, (b) the master plan of the county in which the municipality is located, and (c) the State Development and Redevelopment Plan adopted pursuant to the “State Planning Act,” P.L. 1985, c.398 (C.52:18A-196 et al.).

9.1. Local Municipal Master Plan

Pursuant to the LRHL, “all provisions of the redevelopment plan shall be either substantially consistent with the municipal master plan or designed to effectuate the master plan” (N.J.S.A. 40A:12A-7(d)). This Redevelopment Plan is substantially consistent with, and has been designed to effectuate, the Township’s 1979 Comprehensive Master Plan. It should be noted that during the drafting of this Redevelopment Plan, the Village’s Master Plan was being updated. Throughout this process, the professionals working on and the public involved in this update were consulted for consistency.

9.2. 2009 Vision Plan

The 2009 Vision Plan specifically addressed the South Orange Avenue as one of the Village’s Downtown Corridors. The Plan is not a component of the Master Plan but serves as a general planning and vision document for the Village. This Redevelopment Plan is consistent with the goals established in this visioning document including:

- Diversifying the economic base
- Create economic opportunities
- Creation of office space
- Vary the intensity and type of development
- Provide housing opportunities

9.3. CBD Redevelopment Plan

The Central Business District Redevelopment Plan, initially adopted by the Village trustees in 1996, and later amended in 1999, 2002 and 2014 includes various properties in 12 Blocks of the Village’s central business district. The chief objective of the CBD Redevelopment Plan was the revitalization, upgrade and maintenance of properties in the Village downtown and along its edges, building on the efforts of the South Orange Train Station Redevelopment Plan adopted in 1994 to address major station improvements in the heart of the CBD. The plan targeted specific uses on either side of South Orange Avenue with the express purpose of enhancing the economic vitality of the CBD and expanding retail, services, residential and arts opportunities in the district. This Redevelopment Plan is consistent and an opportunity for implementation of the CBD plan.

9.4. Essex County Master Plan

This Plan is consistent with the goals and objectives of the County and implements key objectives throughout the plan. For example, the County Comprehensive Transportation Plan, adopted in June of 2013, notes the importance of redevelopment on parcels that have been deemed underutilized, and transit-oriented development in particular, as the chief form of future development within the County. The 2013 Plan adopted standards for roadways based on transect zones, in which a majority or South Orange would be considered T4 – General Urban and T5 – Urban Center, which emphasize pedestrian safety, infrastructure and narrower roadways.

9.5. Adjacent County Master Plan

The Redevelopment Area is located near the geographic center of South Orange and will have negligible impacts on surrounding municipalities, as it is approximately .5 miles away from the closest municipal borders with Maplewood and the City of Newark.

9.6. NJ State Plans

The Area is located within Planning Area 1 (PA-1). As documented in the SDRP, the following intent has been documented for PA-1:

- Provide for much of the State's future redevelopment;
- Revitalize cities and towns;
- Promote growth in compact forms;
- Stabilize older suburbs;
- Redesign areas of sprawl; and
- Protect the character of existing stable communities.

This Redevelopment Plan will upgrade the use of land near the train station to continue economic development; expand housing options to provide a balanced residential population; manage local traffic congestion and reduce pollution; and encourage transit opportunities for connections with the Metropolitan Planning Area and between the Metropolitan Planning Area, suburban employment centers, and the Philadelphia and New York metropolitan areas.

9.7. NJ Smart Growth Principles

New Jersey Department of State has developed a definition and has identified areas within the state as Smart growth Areas. This encourages a compact form of development and redevelopment

in recognized Centers as stipulated in the State Development and Redevelopment Plan, including existing infrastructure that serves the economic, the community, and the environment. This Plan is a Smart Growth project and conforms to New Jersey's Smart Growth Principles, including:

- It provides for multiple land uses in a compact community design and contributes to the range of housing choices served by several transportation opportunities.
- The planned urban design creates a walkable neighborhood that offers upgrades to the current use for residents, commuters, and visitors, alike.
- This Redevelopment Plan continues to build on the Village's efforts to spark development and redevelopment in its downtown and direct growth to an area with existing infrastructure.
- The Redevelopment Area programming and design recommendations include a wide range of transportation improvements and promote alternative transportation options, including walking, bicycling, and transit.
- This Redevelopment Plan provides a framework for equitable, predictable, and efficient development decision making.
- The Redevelopment Plan expands upon a collaborative and transparent redevelopment process.

9.8. NJ State Strategic Plan

The New Jersey State Planning Commission released its final draft of the State Strategic Plan on November 14, 2011. Compared to the State Development & Redevelopment Plan, the State Strategic Plan emphasizes a more "proactive, aggressive, and strategic approach to planning for the State's future. An approach that aligns clear goals with sound decision making and coordination among government entities will better position New Jersey for growth opportunities and allow New Jersey to once again complete for and capitalize on growth opportunities."

Central to the State Strategic Plan is its contemplation of development in Smart Growth locations and regional centers.

This Plan furthers the following objectives, goals, and findings of the State Strategic Plan:

- Capitalizes on the "desirability of Transit Hubs" by expanding housing options near major transit assets and provides the necessary design and building conditions for concentration of jobs, retail, and public amenities.
- Creates a neighborhood orientation to transit that is intended to serve residents, visitors, and commuters. The State Strategic Plan projects that housing and development with rich transit options are the preferred choices future homebuyers will put at a premium.

- Strengthens Township of South Orange Village's Transit Village through a greater concentration of housing and commercial activity near its train station, which the State Strategic Plan identifies as a catalyst for private investment and a robust local economy.
 - Effectuates the following "Garden State Values:"
 - Concentrate Development and Mix Uses;
 - Prioritize Redevelopment, Infill, and Existing Infrastructure;
 - Increase Job and Business Opportunities in Priority Growth Investment Areas;
 - Create High-Quality, Livable Places;
 - Provide Transportation Choice + Efficient Mobility of Goods;
 - Diversify Housing Opportunities; and
 - Make Decisions with Regional Framework.

ATTACHMENT 2

At its November 6, 1995 meeting, the Planning Board recommended that the Board of Trustees determine that the area comprised of the lots listed in the Planning Board's December 4, 1995 Resolution is in need of redevelopment pursuant to the terms of the Local Redevelopment and Housing Law, N.J.S.A. 40A:12A-1 et seq.

There is substantial evidence on which to find that the area is in need of redevelopment and meets the criteria as detailed in Section 5 of the Local Redevelopment and Housing Law, in particular, "c" criterion which states:

Land owned by the municipality, ..or unimproved vacant land that has remained so for a period of ten years prior to adoption of the resolution, and that by reason of its location, remoteness, lack of means of access to developed sections or portions of the municipality, or topography, or nature of the soil, is not likely to be developed through the instrumentality of private capital.

The following are specific examples of how the area meets the above criterion:

The Study Area contains four municipally owned lots which are currently used for commuter parking, the rescue squad facility, and the Village fire house at the corner of Sloan Street And First Street.

There is also evidence that the area meets the criteria as detailed in Section 5 of the Local Redevelopment and Housing Law, in particular, "d" criterion which states:

Areas with buildings or improvements which, by reason of dilapidation, obsolescence, overcrowding, faulty arrangement or design, lack of ventilation, light and sanitary facilities, excessive land coverage, deleterious land use or obsolete layout, or any combination of these or other factors, are detrimental to the safety, health, morals or welfare of the community.

The following are specific examples of how the area meets the above criterion:

The Study Area contains buildings and lot improvements which are dilapidated (buildings on the lumber yard site, upper floor of supermarket buildings on Block 1909, lot 3, building and site on Block 2304, lot 4, warehouse on Block 2304, lot 6, buildings on Block 1902, lot 32), exhibit obsolescence (fire house, lumber yard site, supermarket site, and warehousing/industrial type structure which had been used for the manufacture of ice cream, house converted to office use on Block 1006, lot 13, gas station on Block 2304, lot 5), overcrowding (two buildings on Block 1006, lot 13), faulty arrangement or design (supermarket site, two-family houses in the business district on less than minimum sized lots, building on Block 1006, lot 2 with no direct street frontage), excessive land coverage (drive-in bank on Block 1905, lot 1) and obsolete layout (converted house on Block 1006, lot 13, supermarket site)

There is also evidence that the area meets the criteria as detailed in Section 5 of the Local Redevelopment and Housing Law, in particular, "e" criterion which states:

A growing lack or total lack of proper utilization of area caused by the condition of the title, diverse ownership of the real property therein or other conditions, resulting in a stagnant or not fully productive condition of land potentially useful and valuable for contributing to and serving the public health, safety and welfare.

The following are specific examples of how the area meets the above criterion:

The Study Area is characterized by a growing or total lack of proper utilization considering the alternative uses which could be expected to be potentially extremely useful and valuable in this area which is strategically located within and adjacent to the Central Business District and to the South Orange train station. The Study Area has the potential of being useful and valuable in the revitalization efforts of the Community Business District and contributing to the public health, safety and welfare. Some of the underutilized lots are publically owned and used for surface parking. Others include the supermarket site and drive-in bank.

There is also evidence that the area contains lots which are not detrimental to the public health, safety or welfare, but the inclusion of which is found necessary, with or without change in their condition, for the effective redevelopment of the area of which they are a part.

The following are specific examples of lots which are necessary for the effective redevelopment of the area of which they are a part:

Gas service station along South Orange Avenue on Block 1902, lot 22, houses in downtown area, drive-in bank.

RESOLUTION APPROVING THE PLANNING BOARD'S
AUGUST 3, 1998 RESOLUTION REGARDING
PROPERTIES IN NEED OF REDEVELOPMENT,
EXPANDING THE CENTRAL BUSINESS DISTRICT
REDEVELOPMENT AREA, AND DIRECTING THE
PLANNING BOARD TO PREPARE AN AMENDMENT TO
THE CENTRAL BUSINESS DISTRICT REDEVELOPMENT
PLAN

WHEREAS, the Board of Trustees of the Township of South Orange Village, by resolutions duly adopted pursuant to the Local Redevelopment and Housing Law, N.J.S.A. 40A:12A-1 to 49, previously identified an area of the Central Business District as being in need of redevelopment and, by duly adopted Ordinance, previously adopted a Redevelopment Plan for the Central Business District; and

WHEREAS, pursuant to N.J.S.A. 40A:12A-6(a), the Board of Trustees requested that the South Orange Planning Board undertake an investigation to determine whether certain additional properties in or appurtenant to the Central Business District are in need of redevelopment and/or rehabilitation, these properties being identified as (i) all properties on the south side of South Orange Avenue from Sloan Street to Prospect Street except Block 2014, Lot 1 and (ii) all properties on the north side of South Orange Avenue from Vose Avenue up to and including Block 1007, Lot 17, more commonly known as 159 South Orange Avenue, all as shown on the attached maps; and

WHEREAS, pursuant to N.J.S.A. 40A:12A-6(b), the South Orange Planning Board held a public hearing on June 1, 1998 to determine whether the aforementioned properties are in need of redevelopment and, pursuant to N.J.S.A. 40A:12A-6(b)(5), has recommended that the Board of Trustees of the Township of South Orange Village determine that the aforementioned properties are in need of redevelopment; and

WHEREAS, the Board of Trustees hereby adopts the findings set forth in the Planning Board's August 3, 1998 Resolution and makes the following additional findings:

- i. Many of the aforementioned properties do not meet the applicable use, bulk, and design standards of the Zoning Ordinance with respect to the B-1 zone

district, especially those standards pertaining to lot size, setbacks, and parking requirements;

2. Upgrading and improving the aforementioned properties is consistent with objectives of the 1991 Land Use Plan, the Redevelopment Plan for the Central Business District, and the prior Redevelopment Plan for the train station;
3. Comprehensive redevelopment of the Central Business District in response to increased rail traffic resulting from the introduction of direct service from South Orange to Manhattan is in the public interest and promotes the general welfare of South Orange residents by furthering the objectives of the Master Plan;
4. Upgrading and improving the aforementioned properties will enhance the effectiveness of prior improvements to the Central Business District and promote the success of other redevelopment efforts pursuant to the Central Business District Redevelopment Plan and are thus necessary to the effective redevelopment of the area as a whole; and

WHEREAS, the Board of Trustees hereby concludes, for the reasons set forth herein and in the Planning Board's August 3, 1998 resolution, that conditions described in N.J.S.A. 40A:12A-3 and N.J.S.A. 40A:12A-5(a) to (e) are found within the aforementioned properties and that they are located within an area of the Central Business District that satisfies these criteria.

NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of the Township of South Orange Village as follows:

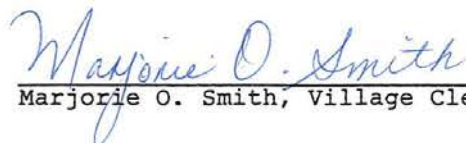

1. The following properties, all as shown on the attached maps, are hereby determined to be in need of redevelopment:
 - a. All properties on the south side of South Orange Avenue from Sloan Street to Prospect Street except Block 2014, Lot 1, and
 - b. All properties on the north side of South Orange Avenue from Vose Avenue up to and

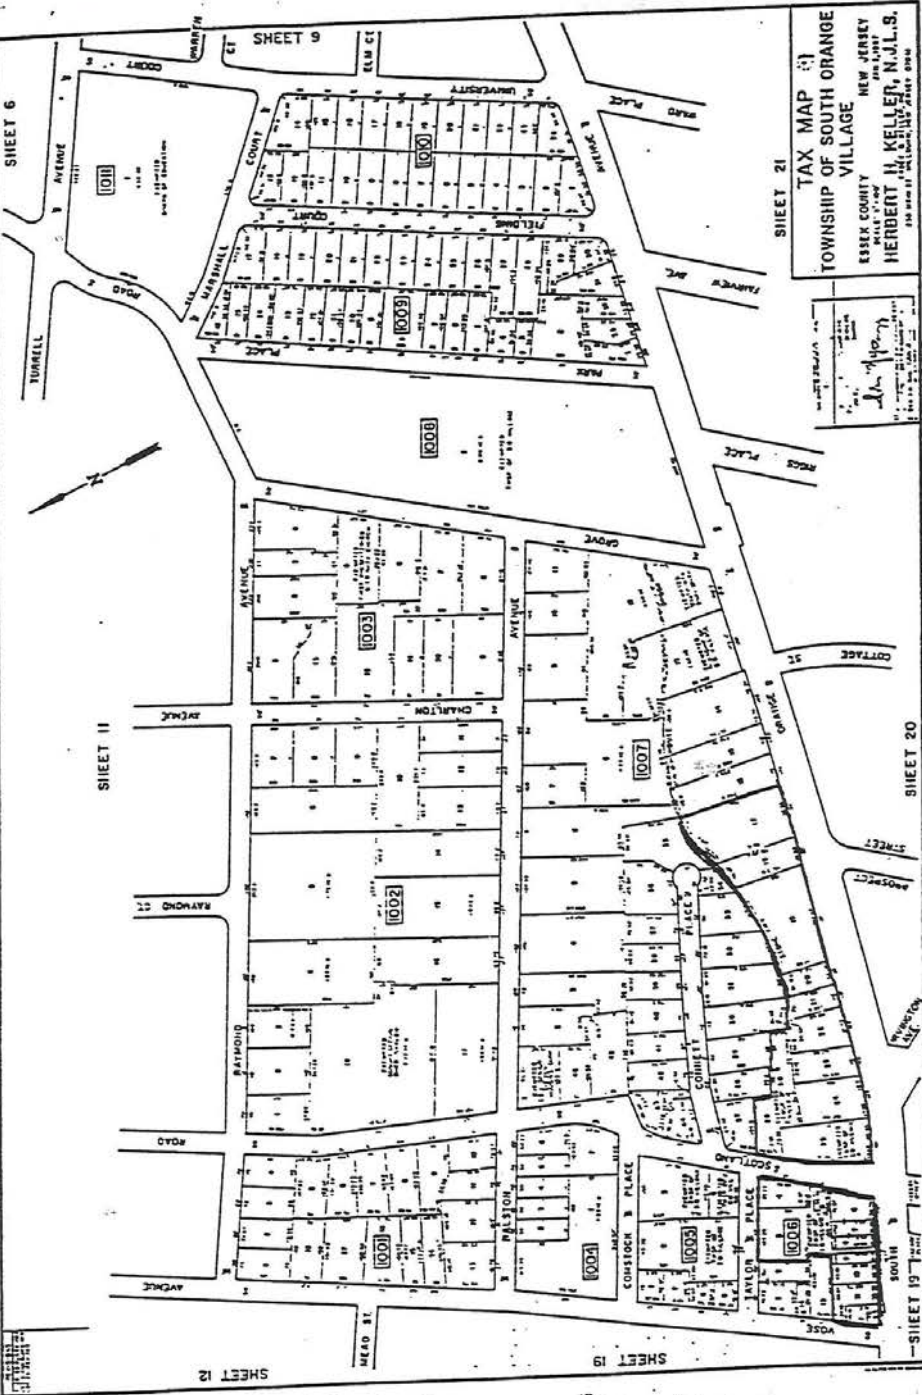

including Block 1007, Lot 17, more commonly known as 159 South Orange Avenue.

2. The Central Business District redevelopment area is hereby expanded to include the properties identified in Paragraph 1 and on the attached maps.

3. The South Orange Planning Board is hereby directed to prepare an amendment of the Redevelopment Plan for the Central Business District, incorporating the properties identified in Paragraph 1 and on the attached maps, and to transmit the proposed amendment to the Board of Trustees.

I, Marjorie O. Smith, Village Clerk of the Township of South Orange Village, in the County of Essex, New Jersey do hereby certify that this is a true and correct copy of a resolution adopted by the Board of Trustees of the Township of South Orange Village at a Regular Meeting held on Monday, January 25, 1999.
