

The Department of Health uses the following criteria to define COVID-19 cases for public health surveillance (CSTE Case Definition): <https://www.cdc.gov/nndss/conditions/coronavirus-disease-2019-covid-19/case-definition/2020/>

Rate per 100,000 residents

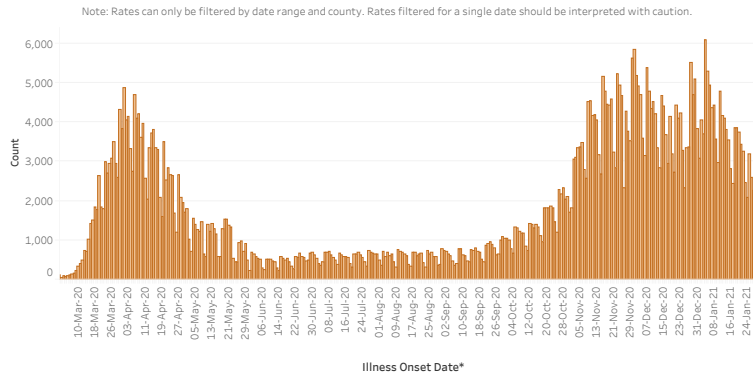

COVID-19 Confirmed Cases by County

Lab Confirmed Cases (PCR): All Positives

629,360

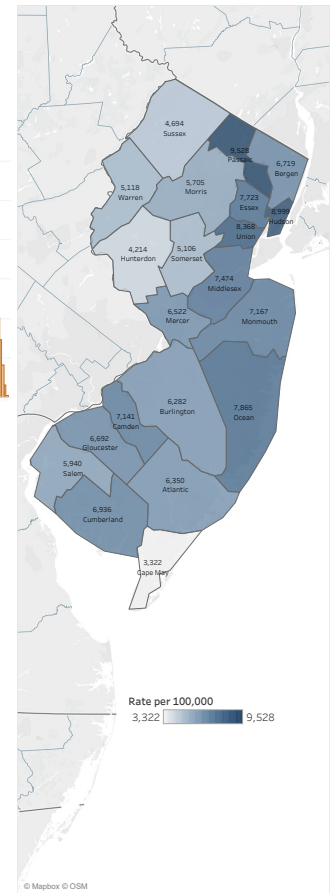

Rate per 100,000: 7,158

*If illness onset date is unknown the date of specimen collection or the date of NJDOH notification is used, whichever is earlier.

**The number of PCR positive cases represents individuals with PCR positive test results. This number may include individuals who also have antigen positive test results. Less than 3 percent of PCR positive cases are also antigen positive.

NOTE: Use the CTRL key to select individual dates. To select ranges of dates, click and drag across the dates of interest. To un-do interaction, select the REVERT button in the bottom left corner of the screen.
