About SEPAC

The Special Education Parent Advisory Committee, or SEPAC, is an advocacy group focused on policies, programs, and practices within the South Orange/Maplewood School District. Families and caregivers of student(s) with learning needs or students eligible for or receiving services under an IEP or 504 plan are encouraged to attend SEPAC Meetings. SEPAC provides parents with tools and information to work collaboratively with the school district and to be more effective advocates for their children with special educational needs.
