

Essex- Hudson greenway Project

By the 20248 Junior Girl Scout Troop

The Overview

There is 9 miles of unused land that runs through parts of Essex and Hudson County. But there people are trying to do something with this land. What if we transformed this land into a walk/bike path. It would be the perfect place go on a nice bike ride, walk your dog, go for a run, or just be out in nature. You can click on the link which will take you to a website about how you can help. It would mean so much if you could help.

Why it's important

We need this greenway because it is a once in a lifetime chance that we will not get again. It can support local small businesses as well as the community. This could be a great place for marathon training. I know someone who ran the NYC marathon, so this could make training fun. Not only would it help runners, bikers, and hikers, it would also help the environment and the community. You could even walk or bike from montclair to the ferry in hoboken or jersey to go to New York city

How you can help

Now you know why this project is important spread the word!

You may see some door hangers and flyers popping all over Maplewood, take a picture and share it to your friends, family, and community.

Click the [link](#) to subscribe to this cause, you can get project updates and be able to volunteer. Check out this site www.essexhudsongreenway.org and

- Check off the volunteer box on the FAQ tab

This is limited time offer, so if this land doesn't get sold it might be sold to someone who has a different opinion, and won't keep this a conserved green space.
